

The practitioners of this ancient form of diabolism have captivated the wisdom of the people as a result of which they do not know the reality. They have been dishonestly trapped and killed. Those unscrupulous banias spread in advance, rumours to the effect that they (the banias) belong to the royal lineage. To the Muslims they say 'first Sah (the businessmen's community) and then Badshah (the king)'. Let me tell you, they are extremely selfish. They are maintaining friendly relation with the British rulers. They are telling the whole world that they are one with the Britishers and that the Britishers too like them, are banias. Thus they pretend to be friendly with one and all and overtly live a life of austerity. They will first show great respect to others - calling them their father and brother - but afterwards destroy them. They are running hundreds of such sinful operations. They will first make friends with others calling them brothers and then finish them off with their diabolism. They have already circulated a prediction that the British will rule the entire world. These banias had also predicted that Ravana, Hiranyakashipu, Kansa, Karun and others would rule throughout the length and breadth of the world. Far from ruling the world they fell into the trap of the diabolic operation and lost their life. They are remembered with contempt and horror as the demons who had let loose a reign of terror. However, nobody could find out the actual operation of this diabolic act.

The saudagars have taken recourse to this mystic rite of diabolism in order to fulfil their secret ambition of capturing political and economic power of the world. They have been motivating others to learn and practise a little bit of this black art since long and thus causing their ruination. Ravana, Hiranyakashipu, Kansa and Karun had accumulated huge wealth by their diabolism power during their rule. It is said that Ravana had built the city of Lanka made of gold and Karun had collected 40 dungris (a measure) of money. Their entire wealth and money is in the possession of these banias. Those who had learnt this black art lost their wisdom and their life. Even their children could not enjoy the riches collected by them. There was a lot of wealth and money in the world which always remained in the custody of the banias. The huge amount of money and wealth which Ravana had accumulated by repressing his subjects did not remain with him.

What I want to say that there was so much wealth in the world but all of it was held by the banias. Even the revenue that was collected by Ravana by taxing subjects heavily did not remain with him, nor could his descendants lay their hands on it. Ravana and others along with their descendants were doomed. Most of the money was possessed by these sinners. Their diabolism is still continuing because they are motivating others to practise it. Those whom they have taught sinful activity are practising it at present or will do so in future. They will meet the same fate as Ravana and others did. Now listen, if you do not believe in what I am telling you and would not do anything to deal with the diabolism of the banias, the banias will establish their supremacy and slowly destroy the people of all the continents in the same way as they destroyed Ravana. India has already been ruined and whatever has been left of it will also be destroyed by the foreign rulers who will be lured by the banias to rule the country.

Let me tell the rulers of the foreign lands that if they succumb to the temptation and ruin India under the diabolic influence, then they too along with their children will be doomed. Since nobody is aware of the diabolic operation, the people will start fighting among themselves resulting in large scale deaths. As Ravana's greediness caused his downfall, the greed and temptation of ruling India generated in you will bring about your total ruination. These banias tempted Ravana to expand his empire and finally doomed him.

Similarly when this covetousness will enter the minds of foreign rulers as per their plan, they will be doomed and then, the banias succeed in their mission of ruling the world. That's why I appeal to you to finish off their diabolic operation in the interest of the well being of the coming generation. If this scourge of diabolism is allowed to continue, the banias will control the economic power of the world as they have done in India and their sinful act will remain a secret beyond the access of anybody. During the Sat-yuga even the men of divine qualities could not know about this secret activity because their wisdom had been captivated by means of diabolic power. Then Ravana had immensely tormented Shanishchara by diabolism and so he came to know about this mystic practice. He immediately told the people of the world about it. The people of the world got united and fought this menace. Consequently the network of the diabolic operation was broken to some extent but it has again been revived now and I have become its victim.

Until I was tormented, I did not know that they were practising diabolism. But now that they have tortured me and so like Shanishchara, I have come to know about the mystic rite that they have been performing. As soon as I was subjected to torture I thought of your children and so I am telling you about the diabolic rite being-performed by the banias. You, the people of the world, are the creation of God. These banias have tormented me by performing the diabolic rite in my presence.

As I have already said several times, the magical effect of the diabolism has deprived people of their rational thinking. The banias will completely ruin the world. And after that only these infidels will be left in the world. Just think of it, when the God's creation itself will have been destroyed, what will remain there? If you people of the world, the kings, the rulers like Ramchandrajji, unitedly fight and dismantle the diabolism of the banias, the coming generation of the world will live in peace and comfort. Otherwise they will destroy all the countries with their diabolic power.

These banias have tortured me by their diabolism. The noose of their diabolism is tightening around me. The pain is unbearable. Having suffered this unbearable torture, I want to caution you that the diabolic rite of these banias will create scarcity of food, deprive people of their money and wealth and corrupt the intellect of the people. You can see how brothers are fighting among themselves, taking each other's life. I can't say what is in store for people. That's why in the name of God I want to warn you that these banias will torture God's creation.

I am a humble man and repeatedly I have written that earlier the Kings and rulers in Delhi (the capital of India) followed the path of righteousness but now they have lost their sense of right and wrong under diabolic influence and have started losing temper and quarrelling with each other. They have been torturing their subjects. Internal conflicts are taking a heavy toll. The situation is going from bad to worse with every passing day. The secret behind all that is happening is not known to anybody. These saudagar have circulated books of devilish content attributing them to the holy men among the Hindus and the Muslims. They are greatly mistaken. These books are not the religious, they are greatly mistaken. These books are not the religious texts of the Hindus and the Muslims. They are the product of these saudagars. They have attributed these books to the holy men among the ancestors of the Hindus and the Muslims so that their sinful act is not exposed. Going by these books the Muslims say that as a result of the curse of the holymen of their religion in ancient times the kingdoms have crumbled. The Hindus believe that the curse of

Lord Shiva has resulted in the destruction of the Hindu Kingdoms. According to them all the kings in India are under curse of their respective deities.

In Marwar goddess Chamunda is said to have cursed the kingdom. The people of Marwar say that goddess Chamunda had cursed that the kingdom of Jodhpur would remain under subjugation of the Rathods for five hundred (500) years and thereafter their rule will come to an end.

At present King Edward is ruling the country through governor general and other authorities of high status. About them people say that the British came with good intention but when they leave they will have ill will. These things may have been mentioned in some of these books. But as a matter of fact when these banias will brainwash you (the British rulers) by their diabolic power, you will start harassing the poor and destitute. Then they will bring rulers of some other country to destroy you-the British.,

It is with this concern that I am repeatedly saying that these banias will use their magical power to lure the rulers of other countries to come to India. Then they will spread ominous prediction about their fate. The next step will be to perform the sacrificial rite to harm those foreign rulers. Thus the predictions will become a reality. It is said that nobody thinks: how is it that things that they spread in advance turn into a reality? Why is it so that those who come to rule India destroy this country with their own hands?

In this way rulers of all the seven or eight continents will be lured by the banias to come and rule this country. They will then exploit the people of India and ruin the country.

How will they do it? The banias will train the rulers of these seven-eight continents in the art of diabolism. They will teach them only a small part of their black art and keep the core of their knowledge with them. Exactly as they did with Ravana. Bereft of their thinking power they will hold themselves responsible for all the ills. Thus rulers and other of all the continents will wage a war against each other in which most of them will be killed and their number will be reduced. The saudagars will find that they are more in number as compared to others and so nobody can harm them. Then they will rule the world.

As long as the people of all the seven or eight continents are in substantial number, they will teach these people a little bit of their magical rite so that they are branded as sinners. They will not do so only at the risk of their own survival. They are indulging in strange and mysterious activities and nobody knows the secret of their magical art. They will destroy the thinking faculty of the people who will then start killing each other till such time when they will remain few in number. Then these wretched banias will rule the world.

Prior to that they will let people of other communities rule the countries of the world because others will be outnumbering the banias. Others will then get a bad name while the banias will remain unexposed and unscathed. When they will see that they have outnumbered others, they will take the reins of economic and political powers in their own hands.

Brothers! faqirs and Sadhus of the present day are no different from those of the earlier times. But these saudagars have made before people that the Sadhus and faqirs of the ancient times had created the universe and it is they who can destroy their creation. One

must understand that this universe has been in existence from time immemorial and it is God's creation. The sages of earlier times did not create it. All of us-you and me-are caught in this diabolic net and so cannot think properly. Now the names of your ancestors are given in these books, which you so much revere. I would request you to create a universe. If you, the descendants of the ancient sages cannot do it, how was it possible for them to create ?

In fact the universe is the creation of God. Just as worms and other microorganisms grow inside man's stomach, we, the human beings have grown in Mother Earth's 'stomach'. I want to remind you that these banias have spoiled the intellect of you people by their diabolic power. You are behaving as an intoxicated man behaves. These books say that Lord Shiva and goddess Devi designed this universe and Brahma created it. Brahma, Shiva, Devi and others were all human beings. They were born just as you and I were born in Earth's 'stomach'. Shivaji was a devotee like many others. His real name was Shivanath. Brahma was Brahman and Devi's name was Devli. All of them were great devotees and by virtue of their devotion and righteousness they are still remembered with reverence. They have immortalised their names. They will remain immortal as long as human being will exist. When you the people of the world will cease to exist who will be there to remember them. If you too follow in their footsteps and adopt righteousness you too will become immortal. But these banias have so much spoiled the intellect of the people that they no more have compassion for any living being.

During the days of the religious minded people of earlier times, the influence of diabolism .was not so much as it is now. They were full of pity and compassion for others. After the death of Raja Bal, the banias have spread their network of diabolism with the result that people have lost the virtues of righteousness and compassion for other living beings. The books say that the universe was created by Brahma, Shivaji, Devi and Lord Krishna.

But I think that no human being can create universe. God has not given him any such power. It is the creation of God himself. Besides books say that Hanumanji lifted a mountain. Just think, how can a human being be so powerful as to lift a huge mountain. Mountains are bones of Earth, as a human being has bones in his body. The books also say that he had held the sun in his mouth. The books eulogise his power and strength. Do you know that the magical power can make a mountain fly and also can bring down the sun.

When they perform the diabolic ritual to curse Earth; all the living beings have to suffer. They tear apart the skeletal frame of Earth and thus cause her a lot of pain.

According to the religious texts of the Muslims a holy faqir filled his tumbi (a small vessel) with the entire Anasagar (a huge lake) in Ajmer. It is also said that when the holy faqir visited Ajmer, a horse struck the ground with its hooves which tore the seven layers of Earth. Both the Hindus and the Muslims are taking great pride in the miraculous feats of their respective ancestors. They do not know that it is the magical power which makes huge reservoir of water evaporate and also tears Earth's layers. When magical power- is used to tear Earth, it results in a lot of pain to Earth. These unscrupulous elements have caused a variety of afflictions to Earth. They surreptitiously suggest to the people of the world including the faqirs to learn this black magic. Having lost their sense of judgement, people have become unconcerned about the pain and suffering of Earth.

The banias are trying their best to see that their sinful activity continues unhindered and the world remains lost in the stories of miracle. So many and so diverse concoctions have been circulated by the banias that it is difficult to keep track of all of them. I remember only a few of them which I want to write about. If I were well educated, I could have remembered more of them. Now you Hindus and Muslims are educated and so you should make it a point to read very carefully this text, which I have dictated to my clerk. Until I was tormented by the banias with their magical exercise, I too like others, could not see through their game. I too believed that our ancestors had miraculous powers. But when banias tormented me by their magical power, I came to know about their sinful activity.

The books which the Hindus and the Muslims regard as their religious texts and which bear the name of their ancestors were surreptitiously produced by the banias. They thought that when the rulers of other countries having fallen in their trap would come to ruin the people of India and see these books claimed by the Hindus and the Muslims as their religious texts, they would come to the conclusion that the rulers and Sadhus and faqirs of India practise diabolism.

This will prove disastrous to both Hindus and Muslims. The banias will remain unharmed. These saudagars have so much spoiled the thinking faculty of the people of India that they readily believe in miracles. By practising diabolism the banias can create hallucination.

All of us know that the dead cannot come back. But these banias by their magical power can make people see persons who had died long ago. They perform their diabolic ritual in the name of the saints of earlier times. Then people see them in their dreams. When the Hindus go on a pilgrimage to Hinglaj (a shrine) the devotee among them is shown the face of Hinglajji. This is done by the banias to make use of their magical power for the purpose. The person who has had the darshan of Hinglajji, after returning to his native place tells others that in the Hinglajji there is a big shrine of Devi (goddess) which he has seen with his own eyes. The people of the world say that only a great devotee is blessed with the darshan of Hinglaji.

In Hinglaj there is a temple of Kalka Devi. People visit that temple for darshan. They offer a goat's blood to the Kalka Devi. If the blood trickles down on the floor, people believe that the goddess is not happy. But in case the blood poured on the idol of the Devi evaporates, it is believed that the goddess has accepted the offering and she is propitiated. This is mentioned in religious books. You can see how people are being misled by these books. The goddess does not either drink the blood or evaporate it. It is all due to diabolic practice of the saudagars.

Likewise, Mecca and Madina are considered to be the most important Shrines of the Muslims. Muslims visit these shrines to pay their respects. The Muslims have been the rulers of this country. But they too have been deprived of their rational faculty. When they go to the holy shrines, they see a she-camel in their dreams which is made possible by the magical power. They believe that it is all due to the blessing of the holymen, who seem to be happy with them.

On way to Hinglaj there is a shrine of Chandrakoopswami. At that place Mother Earth is suffering from a disease which has been caused by diabolism. You know when a wound in our body becomes ulcerous, pus is formed there and the flesh starts decaying. The ulcer

bursts and pus oozes out. Similar kind of disease has been caused to Mother Earth by these banias.

So when people visit the shrine and ask for the darshan of Chandrakoopswamiji, pus starts flowing out from a hole. When this happens, people believe that Chandrakoopswami has granted them his darshan. We do not know how big that ulcer is, whether it is big as a pond or bigger or smaller than that. Hundreds of diseases have been caused to Mother Earth as a result of which she has become weak and emaciated. There is no fat left in her body. You will know about it only when you try to find out. You people are completely ignorant of the problems being faced by Earth because you have lost your wisdom.

You only believe in what is written in the books which you so much revere. I want you - the Hindus and the Muslims of India to inform the people of all the seven or eight continents including the British, about the diabolic designs of these saudagars. I want you to read this book of mine which aims at exposing the misdeeds of the banias and spread its message far and wide. There are other countries in seven-eight continents whereas India is alone. These banias are greedy for power and pelf. I have fully discovered the tentacles of their diabolic operation, which is why I have decided to expose some of their black deeds in this book.

These banias will bring rulers of all other countries to rule this country and to destroy you people. The foreign rulers will have no inkling of the secret designs of these banias who would ultimately hold the power in their hands. They (the foreign rulers) will not know that the banias will finish off everybody including them and still they will not get wind of their betrayal. The banias will take away their thinking ability by means of their diabolic power. They are the biggest betrayer and deceiver. They are secretly planning to grab the wealth of all the rest of the countries exactly the way they have grabbed India's riches. Ravana had nurtured similar ambition. The people of other countries do not know that these banias are planning to grab their wealth and ruin them along with their children. When there will be only handful of people left in all the countries, these unscrupulous people, like Ravana, will wield the political and economic power of the world. If they are told about this secret design of the banias they will never be tempted to occupy the throne of Delhi.

They would wipe out the entire race of the saudagars. They would rather have them crushed in the oil mill. But unfortunately they are unaware of it. And this unawareness is going to take the lives of the people of all the seven eight continents including the Indian people both Hindus and Muslims. Therefore I am cautioning the Hindus and Muslims of India against the evil designs of these saudagars. So long as you - the people of India - are living unharmed, it should be your responsibility to tell the people of other countries about the devilry of these banias so that their efforts may bring to an end their sinful practice. If you fail to seek the co operation of the people of other countries this web of diabolism can never be broken and that will bring disaster to the humanity.

Therefore, you - both Hindus and Muslims should approach the rulers as well as the common people of all the countries and continents and tell them respectfully that the sinful operation of these banias is the same kind as that of Ravana and Hiranyakashipu and that under the influence of their sinister activity you are killing each other and also the rulers of other countries are being brought to destroy you people. These saudagars will ultimately destroy all the seven eight continents by their diabolic power. Tell them that you have

become almost mad as a result of their diabolic exercise and so they should not have any iota of doubt in this matter. Tell them that the banias have so much spoiled your wisdom that you think that their diabolism is some Kind of miracle. You should also tell them that when they (the foreign rulers) come to India on the invitation of the banias, you are presented to them as evil doers and at the same time they, (the rulers of other countries) are presented to you as the monsters.

Thus to the people of other countries they suggest that the Indian people both Hindus and Muslims are evil minded and to the people of India they suggest that the foreign rulers have all intentions, while they, the real culprits, keep themselves at a safe distance. In India they have circulated books of diabolic content, presenting them as chronicles of miraculous events. These books bear the names of the ancestors of the Hindus and the Muslims. The purpose is that when the foreign rulers will find these dubious books bearing the names of the ancestors of the Hindus and the Muslims, they will come to the conclusion that the Hindus and the Muslims are practising diabolism. So they must be told that they should ponder over the fact that a person indulging in any wrong doing will not disclose his involvement in it.

If the Hindus and the Muslims are the originators and practitioners of diabolism why would they expose themselves by mentioning the name of their ancestors in those books? In fact these books containing diabolic material are the products of these saudagars who do not want their identity to be disclosed and so they have not given their names in those books. These books including those found in the homes of the banias bear the names of the ancestors of the Hindus and the Muslims.

These unscrupulous elements would annihilate the children of the world and hand over the reins of power to their own children. They will create forgetfulness among the people so that they will not remember whatever has been disclosed. They would expect that nobody should know and expose their sinful activity. They had also created this sort of loss memory in the rulers. These banias are highly irreligious. They will hang a bait of temptation and then take away your power of reasoning . So do not fall prey to their temptation. Your greediness may cost the life of your children. I want that your children should not be harmed . I am greatly concerned about the safety and well being of all human beings.

That's why I am cautioning you against the diabolic activity of the banias. Their business establishments have reached in other parts of the world. They have transported their wealth to other countries across the seas, just as Ravana has taken his wealth to Lanka. The banias will indulge in all types of frauds and deception and will leave India for the places where they have slashed their money. They will continue to stay in India till they completely disposses the people of whatever money has been left with them. They will convince you that they do have any money.

They have already spread a prediction that the banias will have no money. They even declare themselves as bankrupt to hoodwink of the people. Just think over it. Who can snatch their money? Like Ravana they had transported their wealth across the seas. And now they say that they do not have money. On reaching that island they will intensify their diabolic activity and thereby cause epidemic and riots in all the continents -which will take

a heavy toll of human life. When they will find that the few people who have survived will pose no threat to their supremacy, they will establish their rule all over the world.

The banias have grabbed the entire riches of the world but now they say they have no money. Just think and ask them if their money has simply walked off like a human being. This is nothing but a fraud. These banias have so much brainwashed the people by their diabolic power that they have become the 'yesmen' of the banias. You both Hindus and Muslims were born in the same country and are like brothers to each other. You have lost your power and authority and now you are doing some job or working as a labourer to eke out your living. But they have clouded your reasoning by their diabolism to this extent that you do not realize that they have usurped all your belongings. You do not realize that the Hindus and the Muslims have not done any wrong to each other and still they have turned each other's enemy.

In fact the effect of diabolism is so debilitating that it takes away one's sense of right and wrong. In earlier times, the great saints and sages who had acquired the status of divinity were at first impressed by this mystic power but soon they witnessed the atrocities being committed by these devils and so they finished them and completely wiped out their diabolism. It was a come back of the Sat-yuga. People had once again cordial relation with each other. The feelings of compassion and sympathy rejuvenated in the people. They adopted the path of righteousness and good conduct.

Some papers have made certain forecast. Accordingly, wars will be fought in such and such year. Kings and high authorities will be killed. Then one among the Hindus or the Muslims will be an avatar. When he will see that people of the world are killing each other, he will preach the people to maintain amity and harmony. Then there will be peace and harmony in the world. All these things have been included in the forecast. But they are not true. These saudagars will use their diabolic power to make people believe in the rising of an avatar. In fact he will be a man belonging to the bania community. He will not harm the people of his own community. He will punish both Hindus and Muslims, expecting those who will readily follow his dictates. Those acting against his ordainment, will be wiped out.

That which you call an avatar (incarnation of God) is in fact a myth created by the practitioners of diabolism. Just as you, me and people of all the countries are avatars of mankind, so are your children. Ever since this creation of God has come into being, human beings have been descending on Earth as avatars. But the way the newspapers are spreading the message about the advent of avatars in this world, creates misgivings in our minds. What kind of avatar he is, who will appear when people have fought and killed one another and then he will restore peace and happiness. In this way they can describe any living being as an avatar whether he is a man, an animal or a bird. I want you the people of all the seven eight continents should strongly intend that you and your children should live a secured and prosperous life.

The banias have ascribed their diabolic practices to people of other community so that their sinful activity does not come to light and they will remain unscathed. They will present someone from their community as a son. of either a Hindu or a Muslim. When a son will be born to a Hindu or a Muslim King, the child will be secretly killed by the banias who will then replace his look alike belonging to their community. The new born will be revered by you people as an avatar.

The banias will work out their plan with absolute dexterity and you will never know what they have done. You will think that the child belongs to your community. They will hoodwink you completely by their diabolic power. The Hindus will treat the child as an avatar in their community. Similarly, if the child is presented by them as a Muslim child, the Muslims will treat him as such.

However, the ultimate aim of the banias is to minimise as soon as possible, the population of both the Hindus and the Muslims so that they can monopolise power in the world. Those who write in the newspapers and also those who prepare almanacs are Hindus and Muslims. But they are not to blame for whatever they write because their writings are based either on the books circulated by the saudagars or on what they hear from the faqirs.

Besides, the ideas are surreptitiously injected into their minds by means of diabolic influence. What is the source of their information is best known to the newspapers and almanac writers. In fact they treat the books of diabolic content with respect because these books contain the names of their ancestors.

Both Hindus and Muslims think that these books are their holy scriptures. This is all due to the diabolic influence. People do not think that it is most unfortunate that they are pitted against each other. The banias have very cunningly planned to place their progeny in a Hindu or a Muslim family so that Hindus and Muslims will think that the child was born in their community and then they will treat him as incarnation of God. How can a human being, who is full of infirmities be God? The light of God's divinity is manifest in every living being. How can a human being be God himself?

But these banias have so much destroyed the wisdom of the people by their diabolic power that they make people accept a human being as God. The purpose is that when somebody from their community will have won the adoration and reverence of the Hindus and the Muslims as an avatar, he will look up to them, in the event of the riot or the conflict the Hindus and the Muslims will dare not blame them (the banias). This is how they fool the people by announcing the arrival of an avatar.

The newspaper persons or the writers of the astrological forecast, unaware of the secret designs of these saudagars, simply pick up these things from the books of fraudulence or hearsay and write them down, which in course of time become a reality. But what makes them a reality is the diabolic ritual performed by the banias on the eighty four lakh Kundis. Nobody would be harmed if this diabolic ritual is not performed. Their modus operandi is designed in such a way that people will squarely blame the writer of the newspaper reports or the astrological forecast for practising diabolism. People will conclude that they have prior knowledge of these events that's how they could make forecast in newspapers and astrological writings.

But actually these newspaper reporters are not responsible for this sinful activity. It is the banias who are responsible for it. These unscrupulous banias practise diabolic rite to harm the world and it results in conflicts in which brothers start fighting and killing each other. But if they stop this practice or somewhat reduce its intensity, people begin to think and behave wisely. They start saying that they should in no circumstances fight among themselves.

So they stop fighting. Thus when the banias stop performing the diabolic rite targeted against the world, nobody is harmed. People do not think of harming others. But these banias do not stop it permanently. When they somewhat stop it, conflicts and clashes too stop. With their magical influence they make people believe that an avatar has descended. They have so much damaged the intellect of the people that they cannot think rationally. In God's regime a lion and a goat move together. But the thinking of the people is so much spoiled that they have become each other's sworn enemy. This is the effect of diabolism.

These saudagars present a human being as an avatar and make people forget about the existence of God. God has created this Earth and the sky the entire Creation. But nobody thinks so. It is all due to diabolic influence. The influence of diabolism is so overpowering that it creates confusion in the minds of the people. So you should understand it fully and try to wipe out diabolism. Then alone the coming generation and the world can have a secured future.

The banias are the practitioners of diabolism. With their diabolism they have created confusion in the world. Under its influence people stop believing in God. For this people are not to blame because their wisdom has been captivated by the banias who exercise their diabolic power for this purpose. If they want to destroy any kingdom, they will first destroy the wisdom of the King by their diabolic power. That king starts behaving in an unjust manner. He lets lose a reign of terror.

Alternatively, the King is killed by the banias who then, after holding consultation among themselves select someone from their own clan to succeed the ill fated king. If he too starts indulging in atrocities, the blame goes to the king's clan. The kings thus use their kingdom, their children and also their reputation. Under the diabolic influence of the banias, people fail to see the reason. The Kings die, while the banias continue to flourish.

They place the person from their own clan on the throne vacated by the King who had been killed by them. The person from the bania community who thus occupies the throne is made by the power of the magic an exact look alike of the King who has been secretly eliminated. His features, his nose, his ears resemble totally with those of the ill fated King. The wives and the children of the King accept his replacement as the real king. For this, the banias cloud the vision of the King's near and dear ones-his mother, his wife, other members of his family, his attendants and even his subjects. The replacement looks to them as the ruler of the State. They fail to see that the ruler has died and the one that they are finding in his place is impersonating him. When one's vision is clouded, one cannot detect the reality. Now if they choose not to kill the King, they destroy his intellect and so the King starts indulging in atrocities and brings disaster to his kingdom. When others find the King indulging in atrocities, they attack him and take his kingdom under their control. This is how he himself becomes, the cause of his destruction. Such is the tentacle of the banias.

When a magician presents his show, he immediately mesmerises the onlookers there. He makes them see fruit laden trees, currency notes and things like that. People are amazed at these spectacles. They say that the magical power of the magician has made such miraculous feats possible. What they do not know is that the magical show of magicians has its roots in the diabolism of the banias. When the banias perform the diabolism, the magicians are able to perform

their magic. But the magicians are not aware of it. They think that they have controlled a deity and that's why their magic works. But the fact is that all these things happen because of the diabolic power of the banias.

The magicians are mistakenly arrogating to themselves these powers. It is all wrong on their part to assume that they have controlled deities and evil spirits and thereby they have acquired magical power. Just as Ravana had captivated the wisdom of the people of all the three worlds, these banias in the same way have captured the intellect of the people by their diabolic power.

What you people ascribe to the swarga and Naraka (the heaven and the hell) is in fact the diabolic operation of the banias. The magical feats of the magicians and tricksters are made possible by diabolism. The banias have - motivated people to learn the art of magic and then others pick up this art by watching them while they practise it. Then it is suggested to them that they have controlled the deities and the evil spirits and thereby acquired the magical power. The swarga and Naraka with eighty four lakh Kundis filled with blood and pus which people talk about is in fact the secret sinful act of the banias. The banias very cleverly motivated people to learn magic and when they have learnt this art ideas are planted in them that they have acquired some power. Thus people are made to bear the brunt of the sins of the banias

The magicians present their magical show openly in broad daylight. People watching them practise magical tricks will conclude that they are the persons who practise black magic. They will then become the victim of people's anger. Little do the people realise that the magicians too are the captives of diabolism. They do not know that the poor magicians will wrongly be punished for an act which is an outcome of the sinful activity of the banias which they are pursuing secretly. It involves a huge expenditure. The magicians who present their show to the people are completely unaware of the secret designs of the banias. If they had known that the banias had inveigled them into learning the art of magic in order to harm their children and that in fact it was the black magic of the banias, they would never have learnt it nor would they have organized their public shows. They are under the wrong impression that they wield this power because they have captivated deities and evil spirits.

The practitioners of diabolism would not like to be exposed. The entire world and all its people are under the influence of diabolism practised by the banias. As a result, people have lost their power of reasoning. The banias used their diabolic power to destroy the intellect of the people and then motivate them to learn and practise magic in order to bring disaster to them. When they want anyone of their own tribe to become the ruler of the country, they eliminate the King. If the King has gone out, say, for hunting, on a horseback or by some other means, he is killed during his outing and then somebody belonging to the community of the banias is made an exact look alike of the king. He impersonates the king and returns to the King's palace riding the horse or some vehicle of the King.

He acts and behaves like the King and so people cannot detect that he is not the real king. He continues to rule: You, the people of the world should believe me. Please do not think that I have written all nonsense in this book. You may be thinking that things written in this book are nothing but a child's blabbering. It is my humble request to you to take a serious note of the contents of this book. The facts that I have dictated forming the text of

this book are a true account of the nefarious activity of the banias. Please take them as such. Do not pay heed to those who say that I am insane or stupid or talk like a foolish child. I have been captivated in the diabolic web of the banias. You have not had this experience.

When Ravana practised diabolism he cheated Sita and Ramchandra in the guise of a deer. Ramchandra didn't know that the deer was in fact Ravana who turned into a deer by magical power. Lord Shanishchara made it known to the people. If that was true then what I say too is true. You will call me a mad man but the fact is that these banias by their diabolic power presented before me the holy men who had died long ago. They made me see the faces of the sages of the ancient times.

When the king of a country visits another country, they make him appear as a poor man. On the other hand a poor man visiting another country is made appear as a king of a country. I have very closely and thoroughly watched these tricks of the banias. I have been watching how with their diabolism these unscrupulous elements change the face of a person so that to others he looks a different person from what he actually is. But I am no stupid. It is the magical effect of the banias which hypnotises the people.

I am writing all this from my own experience and what I have suffered. There is absolutely no untruth in it. If you think that there is no truth in it, then tell me what is it what you call the fourteenth or the sixteenth vidya (science). You must have heard about it or read in some books. It is said that King Bhoj went to Guru Gorakhnath to learn from him the fourteenth, the fifteenth and the sixteenth vidya. He was accompanied by a dhobi (washerman) Boliya.

When Gorakhnathji was teaching King Bhoj the fifteenth and the sixteenth vidya, Boliya dhobi standing outside the room, heard the entire conversation and he too learnt the vidya. This story is known to the people and some books too may have reference to this incident: Thus both of them learnt this vidya. When Raja Bhoj came near his horse and was about to mount it, Boliya dhobi asked him, " My master! Will you kindly tell me what Guru Gorakhnath has taught you?"

Raja Bhoj replied, " He didn't teach me anything. We were simply sitting and discussing things."

"In fact I have also learnt the vidya which Gorakhnathji was teaching you, because I was listening to him when I was standing outside," said Boliya Dhobi.

When Raja Bhoj asked Boliya to demonstrate what he had learnt, the latter did do so. How he did it and what he did. it is not known to me because I am not literate. If I knew how to read, I would have reproduced the details of the story as given in some books. Anyway, Boliya dhobi demonstrated the art that he had learnt.

The Raja then told Boliya that since both of them had learnt the vidya from the same Guru (teacher), they were like brothers. Thereafter the Raja offered to demonstrate what he had learnt. The Raja then entered the body of a parrot. At that point of time Boliya dhobi entered the body of the Raja. He became the king and started living in the King's palace and ruling his kingdom. He asked his attendants to capture parrots from different parts and

kill them, so that along with other parrots the Raja who had entered the body of a parrot, would also be killed and no one would know about it. People say that the Patrani (the Queen consort) of Raja Bhoj would not let Boliya Dhobi in the guise of the Raja come near her. Raja Bhoj had told his Patrani about his plans to learn the fourteenth and fifteenth vidya and so she could detect that he is a fraud and not the King. Other Queens were ignorant of the fact and so he used to visit them frequently.

Raja Bhoj had thus been deceived. Meanwhile the parrot into whose body Raja Bhoj had entered, was caught by a prostitute or by somebody. The parrot told his captor, "I am King Bhoj. I had come out of my physical frame to enter the body of this parrot. Boliya dhobi has entered my frame and now he has become the king. But I am the real king. I accompanied by Boliya dhobi went to Goraknathji to learn the fourteen, fifteen and sixteenth vidya or art. He too learnt it as he was overhearing the process. He cheated me by entering my physical frame. Please tell my patrani (queen consort) the whole story. She is not allowing the dhobi near her. Tell my wife that her husband in the frame of a parrot is in my house."

The captor accordingly informed the principal queen of Raja Bhoj. The queen asked him to bring the parrot to her, "Ask Boliya dhobi to demonstrate the fourteen and sixteenth vidya which he had learnt and tell him that you would then let him have your company," so when Boliya dhobi was asked to demonstrate his art, he readily agreed and did so. Raja Bhoj took advantage of that opportunity and abandoning the frame of the parrot, entered his own physical frame, which Boliya dhobi had abandoned in order to enter the frame of a he-goat.

When Raja Bhoj saw Boliya dhobi in the frame of a he-goat he chased him out and decided to kill him. Boliya dhobi in the physical frame of a he-goat ran for his life and entered a market place where the banias pleaded with Raja Bhoj for mercy saying, "O Master! Please forgive him. Don't kill him and let him go." They have circulated this story which you people believe to be true. Dear brothers, what you call the fourteenth and fifteenth vidya is no miracle. It is in fact the black magic of the banias. They have circulated umpteen stories of this kind in order to keep their sinful activity a closely guarded secret.

These stories have thoroughly brainwashed all sections of people including the rulers and the common subject. They have planned their game so perfectly that in the event of their misdeeds being exposed, they will remain unscathed. Instead, the King, the Sadhus, the faqirs and the common people will be doomed.

They will be blamed for devising and practising diabolism. The banias have played this trick to harm them. Besides these banias hypnotize people with the help of their magic and kill the person whom they want to. Then they replace him with a look alike from their own clan. Raja Bhoj must have been killed by these banias because Goraknathji and Boliya dhobi could not have done it. It was possible only by the diabolic rite which entails a huge expenditure.

Moreover Guru Goraknathji was no sinner or wicked to have practised diabolism in order to torture others. That was the doing of the banias who had deceptively passed on the blame to the kings and the saints and sages so that they became the target of the wrath of the people. Nobody can shed his physical frame to enter the body of any other being.

It was only a myth. Neither did Raja Bhoj enter the body of a parrot, nor did Boliya dhobi enter the body of the Raja or that of a he-goat. These are all fictitious. But the magical power can certainly convert a pauper into a king and vice-versa. It can as well make a rupee coin out of dust. All of us in the world know and see around us how living beings propagate themselves. When human beings, animals, birds etc. have sexual intercourse, their seminal fluid causes the birth of their offspring. This is how procreation takes place. The trees, the plants and other vegetation too proliferate by their seeds. You, me and people in the world are witnessing this process happen. But the diabolic influence has so much corrupted our wisdom that we have completely ignored the Creation of God.

On the other hand, they make us believe that the fall out of their sinful activity is God's creation and the manifestation of his will. Ravana had made people forget about God's creation. They accepted the ruination caused by Ravana as God's will. The banias have left Ravana far behind in their nefarious activities. By exercising their diabolic power they have suggested to the people that the consequences of their misdeeds is only God's will.

God on His will has nothing to do with it. It is nothing but the diabolism of the banias. What is God's creation is all too evident. We are seeing it with our own eyes. What these banias make us see in the form of the spirits-both evil and holy- is the result of their diabolic practice. God is the creator of everything and we can see all these things with our own eyes because His art is not secretive. Every living being begets its offspring-be it man or animal. This process of procreation, which all of us are witnessing and transmigration of souls come under the domain of God.

As against this, the act of diabolism is the secret and mystic ritual of the banias which they are having performed on the eighty four lakh Kundis in order to harm the world. By their diabolic power these banias make people see in their dreams persons who had died long ago. You know we cannot see persons who are no more alive. But they make people see these persons in their dreams. Some of the people have such dreams even during daytime. They see in their dreams the faces of those whom they had seen when they were alive. The banias perform the diabolic rite and thereby they inject a face in the dream of a person. That face perfectly resembles that of an acquaintance of that person. The face which appears in his dream is that of a person whom he had known and seen and who is now dead. These people who see such dreams begin to tell others that they have seen such and such person in their dreams and also while they were awake. The person that they have seen had died long ago. The banias have, by their diabolic power, transformed thousands of people into ghosts and evil spirits. They have killed thousands of people who, they say, are in the grip of some or other evil spirit. They come out with all sorts of deceit and trickery so as to spoil the minds of the people.

They tell people that ghosts, evil spirits, fairies etc. do exist and will continue to exist for all time to come. After the death of any living being its soul transmigrates and enters another body. If things do not follow this cycle of birth, then it surely is the product of the banias diabolism. A seed of a fruit tree will give the same fruit. If we sow a seed, it will grow into a tree and we can see it with our own eyes. This is 'transmigration of soul' in simple words.

A seed of human being will give birth to another human being. Similarly a seed of an animal will give birth to only that kind of animal. This law holds good for all living beings.

Thus there is nothing secretive about God's creation. It is not true, as they say that a living being can enter the body of another form of living being. It is the effect of diabolism which makes people dream weird dreams.

Also with the help of diabolism they make people see an exact look alike of a person whom they have killed. You know when magicians stage their magic show they present amazing feats, such as creating a rupee coin from a lump of soil. Can you say that it is not a coin or any other thing and not a lump of soil? You cannot. You will without doubt accept it as a coin because you see it that way.

The kings, the Sadhus, the faqirs, the poor and the rich see their departed fathers and fore fathers exactly as they looked when they were alive. When you see in your dreams your father and grand father, who are no more, don't you find them exactly the same as you had seen them when they were alive? Do you find any difference? No, they appear in your dreams exactly as they were. People say that magicians can make them see persons who are dead. People are not in a position to identify what is God's act and what is something else'. They attribute diabolical act to God.

Their intellect has been captivated and therefore they do not know that what they see in their dreams is the effect of the diabolism of the banias. Those who are dead cannot come back to life. It is the diabolism which the banias are secretly pursuing. They craft the dreams in which the faces of the dead persons appear. They make people dream during night as well as daytime when they are fully awake.

You know how they do it? They perform the diabolic rite by tormenting eighty four lakh living beings on as many Kundis. This process is so painful that the living beings subjected to torture became unconscious and forget their own existence.

This sacrificial rite in which all-kinds of living beings are tortured casts a shadow of the diabolism of the banias on the people of the world and under that influence they dream weird dreams in which night appears to them as day and day as night. The dreams that occur to them are of so many different kinds that it is impossible to describe all of them.

Earlier when people, whether kings or paupers, used to have such dreams, they could instantly know that somebody was performing diabolism to harm them and the world at large. They would then try to find its source. But now the banias with their diabolic power have captivated the intellect of the people. And the people, whether kings or the poor, do not understand the mystery even if the dreams result in impediments and disturbance in their activities. Even if one tries hard to make them understand, they will not because they have lost their power of thinking. They will vouch for the vidya of Raja Bhoj and Boliya dhobi. The people of the world have heard about it.

But dear brothers! the fact is that no living being can enter the discarded body of any other living being. It is the influence of diabolism which makes people see such miracle. They will first kill a person and then a face resembling his appears in the dreams of others. The way Raja Bhoj and Boliya dhobi were killed in the same way these saudagars must have killed the king of Delhi. So King adorning the throne of Delhi must be the replacement of the original King and he must be someone from the community of these saudagars.

The people of India say that when the Muslim King sat on the throne of Delhi, he forced the rulers of the princely states to send him their daughters for Nauroza (a custom in which the King had to be offered girls, nine days before their wedding. He harassed and exploited the rulers a lot. It is most likely that these saudagars had spoiled the intellect of the king and that's why he let lose a reign of terror. But I am not exactly sure whether the banias had actually killed the king of Delhi and in his place seated someone from their community on the throne. The people of the bania community alone will be knowing about it.

Nobody in the world including the Kings know the secret behind it. The Badshah (the Moghul King) of Delhi did not for a moment think that the atrocities he was committing on his subject would soon come to the knowledge of Kings of other countries, who would then attack him and capture his kingdom. The axe would then fall on the children of all the Muslims. He did not think about the consequences. Nor did his predecessor. The banias with their diabolic power might have corrupted their wisdom. That's why they did not bother about the consequences. If it was not so, then the banias must have secretly killed the real King of Delhi and the one occupying the throne must be someone from their community. After he had occupied the throne, he must have started persecuting rulers of smaller states.

Once a person belonging to the bania community succeeds in capturing power, he would like to see the end of other rulers as well as commoners of the world. With this objective in mind they might have committed this fraud. While doing so they must have mesmerised the brothers, the attendants, the wives and the sons of the king, so that they would accept the imposter as the real king. If a king indulges in persecution of others, his brothers and even his sons dethrone him and one of his sons occupies the throne. If the king has no sons, one of his brothers is made the king in his place. But only a noble and righteous person is made the King.

When the king indulges in misrule and commits atrocities on others, he brings his own downfall. His subordinates numbering in thousands, too start committing atrocities because their wisdom has been destroyed under the influence of diabolism.

The banias with their diabolism make people think that the perpetrators of injustice are the rich and affluent people of the state and so let them do whatever they want to. When their acts of injustice cross the limits, people begin to say, that they would soon lose their kingdom, the downfall of which has been caused by none other than themselves.

Even if somebody gives a sincere advice to a king, who is perpetuating injustice, not to do so, he would not listen because he has lost his sense of judgment. A sane advice is an anathema to him. They say that it is the influence of Kalu (the harbinger of the present age) which makes people take umbrage at the sane and sincere advice given to them. You do not know that what you call as the Kaliyuga is another name of the diabolic regime of the banias. These banias perform the mystical rite of diabolism to harm the world. People perform the mystical rite of wrong under its influence.

In the earlier eras Ravana, Hiranyakashipu, Kansa, Karun and other had practised this sinful ritual of diabolism. After the death of Raja Bal, the banias took it up which people attribute to the fall out of the Kaliyuga. This secretly pursued ritual of the saudagars like that of Ravana, has destroyed the wisdom of the people. These saudagars invite the rulers

of the foreign lands to come to India and kill the King of this land branding him as an unjust king.

The ultimate motive behind this strategy of these saudagars is to establish their rule all over the world. So, by hook or by crook they want to rule the world. The rulers of foreign lands are not aware of their secret designs and so they fall prey to the allurements of these banias. They do not know that the ultimate aim of banias is to rob them of their wealth and riches and to finish them off. The banias approach these foreign rulers and complain to them that the King of their country is torturing his subjects. When the foreign rulers find the king committing atrocities, they kill the king and his descendants and take over his kingdom. What the foreign rulers do not know is that the banias had corrupted the wisdom of the king by means of their diabolism and that's why he commits atrocities. They do not know the secret intentions of the banias, or else they would have thought that the way the banias have brought the downfall of the king of Delhi by first corrupting his intellect, in the same way they (the foreign rulers) would be doomed. If one could know what their real intentions are, then something can be done to dismantle their diabolic operations. And now I have come to know the mystery behind their activities. This has promoted me to write this book.

I want the people of the world, the kings and others to make united efforts to dismantle the diabolic operation of these wretched banias so that their children are spared. Otherwise, the banias would bring the entire world under their rule. These unscrupulous elements indulge in all kinds of misdeeds. If a king or a rich man had amassed a lot of wealth, he is killed by the diabolic power, while he is still young. His small children would not know about his wealth. Then they exercise their diabolic power to see that the people who are rolling in riches, are not blessed with children. God has blessed every couple with children. But these banias by their diabolic power create severe disorder in a woman's womb and she becomes incapable of giving birth to a child. This is the reason why some people do not have children. These people generally adopt children of their close relations.

Driven by the greed of money they (the banias) kill people indiscriminately at an unripe age—be they kings, the poor or the commoners. In the administrative set up of the rulers and even in the governing bodies of the common citizens, it is these banias who are holding key positions. When children become orphan, they usurp their money. Without money everybody becomes helpless, whether he is a king or a commoner, a rich or a poor.

Then stories are circulated that such and such person has lost his wealth and nobody knows where his wealth has gone. Just think money or wealth cannot simply walk away like a human being. In fact the banias draw out that wealth with the help of their diabolic power. In order to fool the people they spread stories that one who is not blessed with a child is surely under the curse of a deity because that deity is displeased with him. Alternatively, they suggest to him that God has not blessed him with a child. God, who is the creator of the whole world, would never deprive anybody of children. But the banias by exercising their diabolic power can prevent the birth of a child. When their diabolism casts its shadow the world is plunged into misery and misfortune. A number of living beings are killed. The banias perform their sinful ritual secretly which people describe as the Naraka. They perform this mystical ritual of sacrifice to curse the world. People think that they are under the curse of their deities or the evil spirits have captured them.

For inflicting the tiniest degree of harm to the world, they sacrifice crores of living beings. What you people of the world hear and say about the so called swarga or Naraka and its eighty four lakh Kundis filled with blood and pus is in fact the operative structure of the diabolism of the banias and there eighty four lakh yonis of animate beings are tormented (Ayonis is a class into which animate beings are divided which are considered to be eighty four lakh by the Hindu). God has made this creation in this form which you and me are witnessing.

The phenomenon which you people erroneously describe as the eighty-four lakh Kundis is the diabolic operation of the banias, which is similar to that of Ravana, Hiranyakashipu, Kansa, Karun and others. The banias have set up their swarga and Naraka as Ravana and others did and there in they torture living beings which results in calamities in the world.

The farmers, the Kings, the rebari-gujar (tribe engaged in tending milch animals), the kumhars (potters community) all depend on the mute animals for their living and livelihood, which all of us know. Elephants, horses, camels and even cows and buffaloes are used in the palace of the king. The farmers use bullocks and he-buffaloes for agriculture and cows and buffaloes for milk. The rebans keep goats, sheep and she-camels. Similarly the kumhars and the beldars (labourers) use donkeys for their livelihood. All those mute animals and beasts of burden are the source of our livelihood. Therefore they must be treated the same way as we treat our parents. We should never be ungrateful to them. The elephants, the horses and the camels carry men and material on their back and therefore people keeping them should treat them with compassion.

Similarly, those who keep goats, sheep and camels to earn their livelihood should treat these animals with respect and gratitude. The donkeys are used for carrying load and bullocks are used in agriculture and so they too deserve kindness and compassion at the hands of their owners. These poor animals are mute and cannot speak out their agonies and ecstasies. It is for us human beings to understand their problems because they are our bread-earners. All over the world people depend on these animals for their livelihood.

These animals have to undergo a lot of suffering. Their suffering has increased since the time these banias have started causing drought and famine forcing people to use these animals for farming. In the Satya-yuga there was no famine and food grains, nutrients, fruits and vegetables grew on their own without people taking recourse to farming. Had there been no diabolism of the banias, the Satya-yuga would have continued. There would be no dearth of water which alone was enough for food etc. to grow. But ever since the banias have started practising diabolism the crops of food grains and nutritive fruits and vegetables have been damaged forcing people to harness animals. People have to sow the seeds because without that they cannot get the yield which was not the case in the earlier times when things grew on their own and animals had not to be troubled. Only the cows, the buffaloes and the goats were used for milk and no animal was put to trouble. Now these seven or eight species of animals have to suffer in order to feed their owners. They are being used all over the world. While only seven or eight species of animals are harassed by the people for earning their livelihood, the banias in their diabolic ritual torture as many as eighty-four lakh species of living beings.

But you, people of the world, say that in Swarga and Naraka one has to undergo eighty four lakh yonis (live the lives of as many creatures) and the consequent suffering. The fact

is that eighty four lakh living beings have to undergo torture in the sinful ritual of the banias. Now you can decide which is worse - their torturing so many living beings or seven or eight species of animals being troubled in the world? These unscrupulous banias are performing this sinful rite at a secret place across the seas. Similar ritual was performed by Ravana who had set up Lanka, a secret place for this ritual, across the seas. The secret place of the banias is inaccessible to persons of any other community. They have circulated a myth that there is a place where exist the swarga and the Naraka, as Ravana had done.

It is this Mother Earth which is both swarga and Naraka. During Ravana's times, Shanishchara was tormented by Ravana. Shanishchara discovered that Ravana was performing the mystic ritual and so he told Ravana that his wisdom or intellect had been captivated by his diabolism.

Vibhishana, who was hearing Shanishchara's conversation with Ravana thought that if he did not tell the truth about Ravana's sinful practice, he along with his children would be doomed. Let Ravana face the consequence if he didn't mend his ways - he thought. Ravana had circulated diabolic texts presenting them as sacred scriptures. Tormented by Ravana, Shanishchara, thoroughly understood the secret of Ravana's sinful ritual which he disclosed to the people of the world, who came to know that Ravana had set up Lanka, a secret place of his swarga-Naraka or in other words his diabolism. It was Vibhishana who had shown Shanishchara, 'the hidden island of Lanka. Ravana was practising diabolism but telling people about the magnificence of his swarga. The secret of Ravana's diabolism was known only to Vibhishana and other members of his clan. Others were completely unaware of it. Shanishchara who had been subjected to torture, exposed Ravana's misdeeds and got his diabolic operation dismantled at the hands of the people of the world. Thus the world could be saved from total destruction.

I sadhu Anoop Das, was captivated by the banias, who practised diabolism against me. Along with my body, they captivated my mind as well. I have fully understood the secret of the sinful act of the banias. I have written about it. As Shanishchara had warned Ravana, I too go to the places where there is a gathering of the bania community and tell them candidly "Following in the footsteps of Ravana, Hiranyakashipu and others, you are practising diabolism which has caused drought and famine on Earth. With this sinful practice you have tormented me and so I have come to know the secret of your designs.

The world and its people - the poor and the rich, the kings and the monarchs, the Sadhus and faqirs are completely in the dark about your misdeeds. You are honest in their eyes whereas the fact is that you are secretly indulging in a sinful activity with the active support of your own men. I exhort you to tell the truth about the sinful activity being pursued by your community so that like Vibhishana you will remain unharmed. Like Ravana, Hiranyakashipu and others you too have set up your swarga and Naraka for performing diabolic ritual. You too have circulated diabolic texts and astrological literature to confound the people."

I warned them not to torment the people of the world by their diabolic practices. I told them, "You've tormented me finding me poor and helpless. I have now discovered what all your secret designs are. I've written about it. It is in your interest to abandon this practice during my life time. You will be spared of evil consequences. The world is ignorant of your

sinful practice. If you do not heed my advice and continue to confound the people of the world - the Sadhus and faqirs, the rich and the poor, they will finish off you along with your children. If you will not do so now when I am alive, then you will never abandon it because people at large are not aware of your sins."

When I question them, they plead ignorance saying that it must be the doing of some dishonest people. I confront them with these questions. Who has circulated these astrological writings and books of diabolic content? Who has set up Kundis of pus and blood? Who has spread stories about them? Who has caused epidemics resulting in death of a large number of men and animals."

I told them categorically, "It is you who make people ill by your magical power and then suggest to them that gods are responsible for their problems. You are following in the footsteps of Ravana and causing untimely death among human beings as well as mute animals. These happenings have already been predicted in the almanacs six months in advance. Who has circulated these almanacs? I am completely in captivity of your diabolism. So I know that your community has set off this diabolic practice. You are advised to abandon the practice during my lifetime confessing your sins to the kings and the common people of the world so that you are saved. Otherwise you have to suffer the consequences of your misdeeds which I am going to expose. People love their children. Nobody wants that any harm should befall his children. But you, the banias, are planning to annihilate large sections of population: and capture political and economic power of the world, then there will be very few people belonging to other communities left who will be far outnumbered by your own people. Ravana had also nurtured the ambition of ruling the entire world but he was killed before he could achieve his target. Like Shanishchara, I too warn you in the name of God not to go ahead with your diabolic plan and spare the children of the world. Abandon this practice during my lifetime in your own interest."

Instead of listening to my well-intentioned advice patiently, they get wild with rage and start abusing me. They heckle me, "Go and plead before the king." Undaunted, I frequent the place where the saudagars, mahajans assemble and exhort them to desist from their sinful practice. I give them my book and ask them to read it. After listening to me and having understood the content of my book, they begin to tell people that the baba (old man) has gone crazy and he is writing books full of nonsensical things and that these books are worthless.

So, you-the people of the world- should know that the saudagar-mahajans assemble in various conferences and fairs with the purpose of finalising their plan of action by mutual consultation. All that they discuss in these- meetings is whether in that year they should cause famine or epidemics. Or should they dethrone a ruler? Will it be more appropriate to perform a sinful ritual which may create disharmony and chaos in the world? These are the items in their agenda and to discuss them they meet on occasions such as trade fairs. Through almanacs or other astrological calendars they forecast these calamities six months and sometimes twelve months in advance. Then they send message to their men who execute the sinful ritual. And calamities befall the world as planned by the banias. This is to be noted that in the fairs or gatherings where the banias assemble, no epidemics break out. Despite the fact that people belonging to the bania community meet there in thousands, no disease of any kind is found there.

Whereas in other fairs and festivals where the Hindus and the Muslims assemble, epidemics break-out resulting in untimely deaths of thousands of people. For example, the fairs and religious festivals at Hardwar, Kashi, Prayag, Dwarika and Pushkar (the famous animal fair where horses, camels, oxen etc. are bought and sold). Likewise the religious festivals of the Muslims at Ajmer, Mecca and several other places attract a large number of Muslims. In all these gatherings, these unscrupulous bania-mahajans cause epidemics by their diabolic power. Thousands of people die at a very young age. To the Muslim, they suggest that those who die in Ajmer, Mecca etc. are lucky people. To the Hindu, they suggest, that death in any of these places of pilgrimage is the best thing that can happen to a devotee.

So death in a place of pilgrimage is welcomed by people, who think so under the diabolic influence of the banias. They do not think that the devotees visit these holy places for remembering God. Why should there be diseases and epidemics in these places? Rather there should be all possible comforts there. If any disease breaks out, it should immediately disappear because people go there for offering their prayers to God who is kind to all. But these mahajans cause epidemics by their diabolic power in order to drastically reduce the population so that with their sheer strength they could rule the world. Doctors practising different systems of medicine come forward to treat the patients.

Earlier, when there was enough money with the people, these medical practitioners gave treatment free of charge and spent from their own pockets to buy medicines for their patients. They wanted that their charity should benefit the world. But now the situation has changed. Ever since the mahajans have started practising diabolic rite, thereby causing famine in the world, they have emptied the coffers of the people of the world. So when some patient is cured of illness, the doctor treating him demands his fee from the patient and there is no harm in it. When these unscrupulous elements find that the treatment given by the doctors, vaidya and hakims (practitioners of Indian systems of medicine) will not let anybody die prematurely, they make the medical treatment ineffective by their diabolic power. When they cause epidemics in different countries only a few, who are not made the target of their sinful rite, survive and a large number of people die because of the effect of diabolism. Then they tell people that the treatment given by the medical practitioners is totally ineffective.

The doctors, on their part, are completely at a loss to find that the treatment given and the medicine prescribed by them, which earlier cured the diseases successfully, are not working now. It is for us to think why the medicines, which earlier cured the ailment, are not giving relief to the patient. But the mahajans, like Ravana, make the treatment ineffective by means of their diabolic power. Practitioners of different systems of medicine are completely in the dark about the sinister game of these mahajans. If their game continued, the doctors will lose their practice which is the source of their livelihood. They (the mahajans) fear that if the medical treatment will cure the diseases, the population of the world will not come down drastically.

They will become the supreme power in the world, when it will have very few people. To achieve this, they tamper with the efficacy of drugs and medicines. Brothers! nobody is immortal in this world. Everybody has to die at old age. But by their devilry they cause premature death to a large number of people so that the population is reduced to the minimum. The purpose of my writing this book is to make you people aware that the

people who are made the target of their secret rite, do not get any relief, whatever treatment is given to them with whatever medicine. If a doctor after diagnosing a patient gives him some medicine to cure his disease, they create many other diseases in him. Once they stop the sinful rite targeted against a person, he is saved. Fearing that the world will come to know about their devilry, they spare some people and let the medicines work on them. Otherwise, they would destroy the whole world. They think that people will stop suspecting them. They'll do everything to slash the population. They'll destroy the thinking faculty of the people who will then fail to see through their designs. This is the reason why people call me a lunatic or an eccentric when I make them see reason. They think that I am needlessly defaming the bania community. In fact the people are not to blame for this. They are under the influence of diabolism and so they think that I have gone mad.

When the banias decide to destroy a king or any other person, they send a message to the place where their mystical rite is secretly performed instructing their men to act accordingly and also to corrupt the intellect of the people so that they will not heed Sadhu Anoop Das, who, they think, will go on crying in the wilderness and will die like that. Then there will be nobody around to mobilise people to dismantle their diabolic operation.

Others do not know what the mystery is. But I was tormented by them, so I know what it is. 'Ravana had partially corrupted people's intellect. So when Shanishchara attempted to make people see reason, they immediately agreed. But people of this age do not seem to be convinced because their reasoning-faculty has completely been drained by the banias. Some people who have not lost their thinking power completely do try to understand and say. "What Sadhu Anoop Das says seems to be true because Ravana had in the similar fashion destroyed the wisdom of the people by his diabolic power. Ravana too had caused premature deaths and also controlled the forces of affluence and rain."

The people whom I explain the intricacies of the diabolic operation or the banias, try to understand a little bit but are not fully convinced. They do not know what that ritual exactly is. It is because they have not been physically tortured at their secret place where they could have witnessed the entire process. But even if they simply remember what I explain to them and tell others that what the baba says is true and that something should be done to counteract, the people at large can be saved. If someone else is found to be the Victim of physical torture, details can be ascertained from him as well. But they avoid tormenting people in person for fear of being exposed. They trouble them by causing weird dreams.

They would never like their sins to come to light. Their sins are of very serious nature. They want to destroy the whole world. I was tormented by them in person, that's how I have come to know about their sinful activity. The banias know this fact and they want that people should not take cognizance of what I've been propagating and wish my book had disappeared because then their secret operation will remain a mystery. So, if the banias are able to make my book disappear they will, slowly and gradually, ruin the whole world and establish their monopoly over the world because then people of other communities will be reduced to a microscopic minority. All the Hindus, Muslims and people of other faiths throughout the world are well advised to treat this book as valuable as their own life. They must read it thoroughly to know the facts. When their copy becomes old, they should get it reprinted and keep a sample copy with them. They should print a good number of copies for wide circulation so that the people of the world do keep in mind the nefarious activities

of the banias and launch a united fight against the diabolic practices of these unscrupulous elements.

The diabolic operation of the unscrupulous banias must be dismantled during my lifetime because afterwards it may not be possible. People do not know the mystery of their diabolism because they have not seen it. So dishonest they are that for fear of being exposed they do everything to confuse people. Earlier, they had cheated the rulers of the day by giving false statements under oath. This is borne out by the fact that when the King had demolished their temples and disfigured the idols and wanted to kill their children, the banias swore in the name of cow and pig (sacred/profane symbolism).

History bears testimony to this fact. This is how these outrageous people escape punishments by indulging in falsehood and perjury. If a serious attempt is made during my life time itself to do away with their sinful activity, you are most likely to succeed in your efforts and the banias too will be saved. Otherwise, afterwards it may never be possible. You people do not know the intricacy of their sinful act, but I know it because I was watching their mystical rite while they were tormenting me. Your wisdom is in their captivity and so they can mislead and confuse you easily. They will not tell you the secret of their activity nor will they give up their sinful practice. They may tell you a little bit about the eighty four lakh Kundis and the eighty four lakh living beings and also numerous concoctions associated with themselves and others only to confuse you. But they cannot bamboozle me by their falsehood, because I have witnessed their devilry. I intend to tell you all about it so that during my lifetime you will dismantle their diabolism.

These banias will never knowingly torment anybody directly. In my case they did so unwittingly. If they ever do so knowingly, they will be exposed and the enraged people will finish them off. I was tormented directly by them and so I came to know about their sinister game which I have written about in this book. What you people call the Naraka (hell) having the pits filled with blood and pus, is in fact the diabolic operation of the banias which their own men are performing secretly in an island. This secret is known only to the people of their community. The influence of diabolism is so deep in the minds of the people that they cannot discriminate between vice and virtue. The sin of these saudagars is widespread. The purpose of my writing this book is to acquaint you with their activity which is outright sinful. But befuddled as people are, they think it is a religious activity. They do not realize that it is a most heinous crime. They do not think that a sin in any form is a sin and so is the case with a virtue. An individual indulging in black magic has little impact but a whole lot of people practising it, at the instance and guidance of the banias has spread this evil worldwide. This matter should be looked into.

A judicious probe into this matter will reveal the magnitude of the sin of the Saudagars. By causing famine and natural disasters they have created acute shortage of food and nutrition. It is an open secret how both human beings and other creatures are suffering. What can be a greater sin? The diabolic influence on the people has made them practitioners of black magic. These dubious magicians are venerated as gods. The world has been converted into a house of evil spirits.

The gods of land, food and water do not degenerate the intellect of the people. In fact the people have been brainwashed and so they sacrifice animals to propitiate gods. It is all due to diabolic influence of the banias. Nutritive food makes a man's mind healthy. But the

baniyas captivate the minds of the people by their diabolic power. God does not delude people. In his regime both a lion and a goat move together. But when the influence of devilry spreads, dissension and animosity takes the upper hand and people start indulging in injustice and atrocity. Many a time, the devils who were practising sinful mystical rites, were caught. After they were caught, their sinful activity abated and people regained their rational faculty.

God has provided every human being with rational faculty but the baniyas by their diabolic power corrupt the minds of the people and get the animals sacrificed by indulging in falsehood. They have turned the brains of innumerable Sadhus, faqirs and others who are behaving like people of unsound mind and consuming human excreta for, as they claim, acquiring supernatural powers. Some of them are collecting human skulls and bones of dead animals. They live in a filthy atmosphere where bones are strewn all around. It is suggested to each of them that he has become an Auliya (saint). While the influence of diabolism makes him think so, others in the world know that the sadhu has gone mad or some devout person has cursed him. Some think that he must have been propitiating some god or goddess and a small error in the process might have deranged him. This idea too comes to them under the diabolic influence.

They begin to say that he has gone mad. He lives in this state for many days and people watch him drinking alcohol, which appears to them as milk because of the spell of diabolism. Similarly a piece of meat appears to them as a cake of gur (jaggery). The sadhu or faqir does not know the secret of such miracles. He does not know how things change their colour. He thinks that God has endowed him with some power which has made such miracles (flesh appearing as jaggery) possible. He does not know that the kafir vidya (the science of the infidel) has done it. It hypnotizes people to whom a piece of meat appears as a cake of jaggery. Actually things remain as they are. Meat remains meat and alcohol remains alcohol. The influence of diabolism destroys their thinking power and things taste as they appear in colour and shape. The sadhu is not to blame for this.

Besides, these saudagars by practising diabolism make people seriously ill. Then a sadhu, who has gone mad, thanks to their diabolism, gives a 'healing' touch and the seriously ill patient becomes all right. In fact the devils discontinue the diabolic rite on eighty four lakh Kundis against that patient and so he gets well and people think that the healing touch of the deranged sadhu or faqir has cured him.

Sometimes, they (the saudagars) cause death to someone at a very young age. Finding the bereaved parents crying, a deranged sadhu, who has become so owing to diabolic influence, would 'bless' them saying that their son would come back to life. The secret rite against that child is stopped and so he is brought back to life. God has granted everybody full span of life. Those who die young are the victim of diabolism. Life of millions of people is cut short by the single ritual of diabolism. To fool the people of the world, they create 'miracles' in which the dead are brought back to life by the 'healing' touch of a deranged sadhu. To divert the mind of the people from God Almighty, they have circulated stories of such miracles. The mystic ritual results in premature death of people. If this ritual is stopped against somebody/he comes back to life. People are greatly impressed by the supernatural power of that mad sadhu, whom they call an Auliya. Wonder-struck at his power to revive the dead, some people become his followers.
